HXC-038 — docs_chain rebaseline affordance (engine extend + green)

Captured: 2026-06-09T14:05:59Z **Type:** Bug · **Status:** Fixed (→ Fixed.md) **Operator**
decision: “Extend engine + green it carefully” (AskUserQuestion)

Work

docs_chain rebaseline subcommand (db-to-md direction only) + writeGuardStore that
REJECTS any write to the authority DB + rebaseline_test.go. Commit 0c297c4.

Captured runtime evidence (real go test)

```
go test ./internal/runner/ -run 'TestReBaseline' -count=1 -v
--- PASS: TestReBaseline_NeverWritesAuthorityDB (0.00s)
--- PASS: TestReBaseline_WriteGuardRejectsAuthorityWrite (0.01s)
--- PASS: TestReBaseline_NeverExecutesSyncTransform (0.00s)
PASS
ok      digital.vasic.docs_chain/internal/runner    0.197s
```

Full runner suite regression: ok ... 1.622s (no FAIL).
