HXC-052 — background_tasks build fix (CONST-052 lowercase replace paths)

Captured: 2026-06-09T14:05:59Z **Type:** Bug · **Status:** Fixed (→ Fixed.md)

Defect

submodules/background_tasks/go.mod replace directives pointed at capitalised sibling dirs (../Concurrency, ../Models) that no longer exist after the CONST-052 lowercase rename → `go build ./...` failed on the case-sensitive layout.

Fix

go.mod lines 38-39: => ../concurrency, => ../models.

Captured runtime evidence (real go build)

```
cd submodules/background_tasks && go build ./...  
BT_BUILD_OK
```

Commit + push

- commit 46ceedb (go.mod only, §11.4.30)
- pushed f007922..46ceedb master → all upstreams (origin/github/upstream/gitlab)
