

2026-05-07-p2-f29-roocode-full-port-design

P2-F29 — Roo-code Full Port

Date: 2026-05-07 | **Status:** Approved **Scope:** Full Roo-code port — task delegation (F15), code generation (template+LLM), code review, memory, conversations.

Architecture

internal/roocode/ (NEW) — 4 sub-components: - **TaskDelegator:** F15 subagent dispatch with roo-code task templates - **CodeGenerator:** Template-based scaffolding with LLM content - **CodeReviewer:** Diff analysis + improvement suggestions via LLM - **ConversationStore:** Memory-backed conversation tracking (reuse F24/F11)

Tools: roo_delegate, roo_generate, roo_bootstrap. **Slash:** /roocode.

Tasks (8): T01 bootstrap → T08 challenge + close-out

Zero new deps — F15, F24, F11 all shipped.
