

Fixed_Summary

Closed workable items (current_location = Fixed), regenerated from the SQLite single-source-of-truth (§11.4.53).

Counts by Type × Status

Type	Status	Count
Bug	Fixed (→ Fixed.md)	137
Bug	Obsolete (→ Fixed.md)	3
Feature	Implemented (→ Fixed.md)	90
Task	Completed (→ Fixed.md)	58
TOTAL		288

Items

#	Level	Status	Type	Fixed-In Tag(s)	One-line description
1	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19 — CONST-046 design; Option D (nicksnyder)
2	High	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#1 — pkg/i18n Bundle/Localizer + sentinel e
3	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#10 — This tas texts shown in the command those brief descriptions can instead of being locked to En
4	Medium	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#11 — challen evaluators.go migration
5	Low		Feature	—	

#	Level	Status	Type	Fixed-In Tag(s)	One-line description
		Implemented (→ Fixed.md)			FIX-2026-05-19#12 — challenge_recorded_ai_testg
6	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#13 — challenge migration
7	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#14 — challenge user-facing migration
8	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#15 — challenge_recorded_mobile.g
9	—	Completed (→ Fixed.md)	Task	—	FIX-2026-05-19#16 — CONST doc
10	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#17 — This task the project’s tracking documents PDF files, using standard documents for team members and stakeholders needing to open raw text files
11	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#18 — helix_c
12	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#19 — This task (translation) support to the h component, so any text it should other languages instead of on
13	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#2 — CONST-C scan 57,345 violations across
14	—	Completed (→ Fixed.md)	Task	—	FIX-2026-05-19#20 — CONST (HXC-001 plan, ex-ISSUE-005)
15	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#21 — This task the LLMOrchestrator component several different AI language error messages were conver

#	Level	Status	Type	Fixed-In Tag(s)	One-line description
16	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#22 — This task involves converting the line text shown by the LLMs' model providers) into a translatable format in multiple languages. Only a small number of tools were converted in this first phase.
17	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#23 — This task involves adding a HelixSpecifier tool so that its output can be in languages other than English.
18	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#24 — This task involves adding a Storage component of the system for retrieving data, so its messages can be in multiple languages.
19	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#25 — This task involves adding an LLMOps component, which manages the language models the system uses, so its output is shown in multiple languages.
20	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#26 — This task involves adding a VectorDB component, which stores specialized AI-related data, so its output is in multiple languages.
21	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#27 — This task involves adding an Observability component, that monitors the health and performance, so its output is in multiple languages.
22	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#28 — This task involves adding a module, the part of the system that handles the hardcoded English error and exception messages in a translatable format, fully converted from the left over.
23	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#29 — This task involves adding a component, converting five languages into a translatable format so the messages can be in different languages for users.
24	Medium	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#3 — This task involves adding an individual sub-component of the system, including a working example in Serbian. This lays the groundwork for the remaining user-facing text and UI.

#	Level	Status	Type	Fixed-In Tag(s)	One-line description
25	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#30 — This task is a Middleware component, converting five hardcoded messages about authentication into a translatable format.
26	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#31 — This task is a Middleware component, the part of the system converting five hardcoded messages about sandboxing into a translatable format.
27	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#32 — This task is a Middleware component, which handles logging, converting five hardcoded messages into a translatable format.
28	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#33 — This task is a Middleware component, the groundwork to the Watcher component, which handles file and event changes. This task is a component's outward labels, which are directly read.
29	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#34 — This task is a Middleware component, which handles conversation component, which handles conversation with users, so its messages can be translated.
30	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#35 — This task is a Middleware component, the part of the system converting nine hardcoded messages into a translatable format and reducing the number of messages in that area from 73 to 64.
31	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#36 — This task is a Middleware component, the part of the system converting the component's privilege-check messages into a translatable format, warning and description messages, and a reduction in the untranslated messages.
32	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#37 — helix_component (round 24)
33	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#38 — This task is a Middleware component, the part of the system converting the AutoTemp component so its messages can be translated into multiple languages.
34	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#39 — This task is a Middleware component, the part of the system converting the Auth (login and authentication) component so its messages can be shown in multiple languages.

#	Level	Status	Type	Fixed-In Tag(s)	One-line description
35	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#4 — This task involves creating templates used by the SelfIm asking the AI model to review translatable format.
36	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#40 — helix_c 4 round 27)
37	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#41 — This task involves groundwork, including 36 trans PliniusCommon library, so that and can safely support many
38	Low	Implemented (→ Fixed.md)	Feature	—	FIX-2026-05-19#42 — helix_c migration (Phase 4 round 30)
